

Bev Woods, RDH

With a career that spans three decades, Bev Woods has given thousands of people a reason to smile. Bev has worked in private and public health, owned her own dental hygiene business, and served as the program director for Maxwell College and Port Hope Community Health Centre. Bev has also held an executive and council position with the College of Dental Hygienists of Ontario and was president and director of the Ontario Dental Hygienists Association. Bev was instrumental in providing continuing education to dental hygienists in the Bay of Quinte area where she was president of the Bay of Quinte Dental Hygienists' Society for many years.

Another hallmark of her career is her passion and commitment to giving back. To ensure no one goes without preventive dental hygiene care, Bev founded Gift from the Heart (GFTH), a national organization that links Canadians with dental hygienists, raises awareness about access to oral health care issues, and emphasizes the role of the dental hygienist as a primary oral health care provider.
