

Dana Callan, British Columbia

There is something to be said for compassion and experience and I am SO pleased to put forth Dana Callan as a true dental hygienist superhero. She has an exemplary level of knowledge and skill coupled with a genuine care and compassion for her patients. Ms. Callan absolutely personifies the dental hygiene profession and I know when I sit in her chair, I am being treated by the best of the best. Not only has Ms. Callan taught dental hygiene at Camosun College but she has been in private practice for over 35 years! Her skills are second to none but it is her heartfelt compassion and genuine care that make me feel like a million dollars. I leave her operatory with the biggest smile and can't wait until my next appointment!

I worked with Dana when I was fresh out of CDA school. She was the most incredibly hard working hygienist I have worked with. She always went above and beyond to help me as I learnt the ins and outs of working in a busy dental practice. On top of being an incredible colleague, she cleans teeth with gentle thoroughness. She truly is a tooth super hero.

Dana is the most kind and gentle hygienist I've ever known. Very thorough and meticulous. Very upbeat, she always has a smile and a story to tell. She listens, too. Dana makes a hygienist appointment something to look forward to.

Dana is incredibly diligent and compassionate. She genuinely cares about each patient on a personal level. She is also excellent at her trade leaving each patient with a shiny bright smile and a hygiene plan to keep their mouth healthy. On top of that she also teaches the next generation of hygienists at Camosun College. Dana goes above and beyond to make each patient comfortable.

Dana is a truly exceptional human being as well as a talented dental hygienist. She is gentle and professional and is always interested in her clients' well being. She has braved considerable personal challenges yet is unfailingly cheerful, optimistic and unselfish. Dana is truly a superhero!

Dana has been an inspiration for me to become a Dental Hygienist myself. Her attitude and care for her clients made me want to get into the profession. She has practiced 35 years and has helped at our local college. She always has a beautiful smile on her face and loves to come to work to care for her clients.

Dana has changed my whole wellbeing with her positive energy, professionalism and true sensitivity and care towards my dental health and myself as an individual. She has looked after my family for 35 years! Top notch dental hygienist...

Dana is extraordinarily friendly and truly cares about her clients. She goes above and beyond to make you feel special and is one of those people who remembers family members names, life events and stories. Dana loves her job and could retire but doesn't want to. Dana offers her time to the hygienist college and has for years because she feels it's important to give back and to provide her experience for others to learn from. I'm very grateful to be a part of Dana's "family" of clients!

Cheery and kind, caring and passionate, she is fabulous at her job and goes above and beyond in every way. My family and I have followed her from dentist to dentist because she is that amazing!

Dana was referred to me by a colleague when we first moved to Victoria. Over the years she has provided excellent care to me and my husband. Her passion for her profession is demonstrated at every visit. She is meticulous in her work and always praises us for our home care while firmly nudging us to do a little bit more. :) On top of a full-time practice, she also teaches at our local college inspiring the next generation of dental hygienists. Through my work, I was speaking with a client only to find out that Dana was her hygienist too. She laughed and said, "Dana is the hygienist for half of Victoria!" I have recommended her to many people and will continue to do so. I think this is the highest compliment that I could give to Dana who is well deserving of this honour.
