

Tania Munir Makani, Ontario

Tania approaches everything in life with passion. She is most dedicated and enthusiastic about the dental health of each and every client. I have seen her in action at work as she totally involves her patients in their oral health. They always leave the office with the education, tools and a renewed desire to have healthy gums and teeth. She is sweet, loving, approachable, funny and very intelligent. Our whole staff and all patients love her. In her spare time, she volunteers in schools, seniors homes, and she is the board of director of Gift From The Heart. She is such a nice human full of life, laughter and love.

Tania is an incredibly competent and knowledgeable dental hygienist. She makes her patients feel comfortable and puts them in good hands. She goes above and beyond her duties to make sure my dental health is up to date and connects with her patients in a very professional manner. She is an excellent candidate for this award as I have witnessed her hard working nature at her clinic and the passion she has for her job. Outside her job, Tania is a good citizen of her community who spends her weekends in volunteering initiatives. She is a valuable professional that uses her knowledge to help others succeed and move forward. In conclusion, she is an all rounded individual that upholds integrity in all her endeavours.

Tania is so passionate about educating the general public about how their oral health affects their overall health. She volunteers her time and knowledge for those who cannot afford dental care. She spends lots of time in schools, and at community events inspiring the general public to learn about what they can do to maintain and improve their oral health which can lead to healthy life. She is very generous. She does all of this on her own time, with love and care, me and my family have personally benefitted from her generosity. She is a champion of oral health and overall health promotion! She brings the latest and most effective tools, models and research to us and is full of information not only in-home care, but in nutrition to support oral health, Her pursuit of helping the public is infinite! She loves her community, and the impact she has made, I believe, is far-reaching and has changed people's health and their lives.
