

DO YOU KNOW A DENTAL HYGIENE SUPERHERO?

Sponsored by:
 SENSODYNE®

Annmarie Ramcharan, Edmonton, Alberta

Ann has been my hygienist for many years except when I decided to try other clinics to save on the long drive. I finally concluded that quality of care mattered much more to me. I missed being educated about my oral health, the thorough cleaning with such a light touch. So, I quickly went back. Her compassionate care and encouragement for us to keep up with simple daily routines made a huge difference in the hygiene practices of my family. Because of her great personality, attention to detail, deep concern for the well-being of her patients and most importantly her professional skill set, we are literally able to SMILE with pride.

Ann has been a mentor to me in my career. Having been in the industry so long, she has helped me strengthen my skills as a clinician to better service the needs of my patients. She openly and willingly has kept me up to date on continuing education, helped me improve the care I provide my patients, and has provided me tools to succeed throughout my career.

She's awesome! Very personable and accommodating. When I lost my job, she fit me in to her schedule that day while I still had benefits. She's a very professional and compassionate person.

Ann is the best at what she does!! She is kind, thorough, and professional. Ann always is concerned about the well-being of her patients.

Annmarie Ramcharan is extremely skillful in her work, mastering her craft over a period of 20 years. She is very knowledgeable in her field, often attending innovative sessions in order to apply new techniques and skills. She is never tired of learning. She is very hardworking, working up to 7 days a week at a number of dental offices here in Edmonton. She is always on call in any personal emergency, driving to the office frequently after a request for her services. All of the above has given her a wealth of education as well as great experience, which she applies to her craft. In addition, she has a great personality with a knack to connect well with people in a friendly and very personal way. Annmarie's interest and concern for other people enable her to talk with her clients about a variety of subjects, asking frequently about their families and life during treatment. She is helpful to others in advising them about their needs and then applying her skills. Undoubtedly Annmarie is a true caregiver in everything she does.

Provided extraordinary service when I was unable to get to my appointment: Annmarie Ramcharan provided transportation and gave me the treatment I needed.

I have been seeing Ann as my dental hygienist for many years. I trust Ann with my dental care as she has always taken care of my oral health issues with the utmost professionalism. She is well informed of the latest techniques and provides me with the information pertaining to me. She always greets you with a smile. Ann shows that she cares how you are and has a great sense of humour. We have shared a lot of laughs over the years. The dental office at Focus on Smiles has a very welcoming, pleasant atmosphere. They use up-to-date technology, offer cancer screening, and share info on sleep apnea and what may work for your needs.

I am nominating my dental hygienist, Ann Ramcharan, of about 30 years because she is a superhero for all of her clients. She does her job uniquely at the highest level of professional quality to make her clients comfortable. She's gentle, loving, and caring. I highly recommend her to anyone who needs a quality dental hygienist. She continues to learn and grow through training in treating the body as a whole. And has expanded her training in the area of TMJ, TMD, and sleep apnea assessment and how it affects overall health. This helps individuals to recognize how changing what is going on with their COMPLETE ORAL health can make a difference in the quality of their overall health.

Ann has been my dental hygienist for over 20 years. I don't enjoy going to the dentist overall but have always looked forward to the positive and uplifting dental hygienist she is. Love her upbeat, friendly personality combined with her professional thoroughness in practice, never taking short cuts and giving you "hell" when you are not flossing or taking care of your oral hygiene.

Ann is very thorough and will always offer tips for the best dental health. I appreciate that!

The Sensodyne logo consists of the brand name in a blue serif font inside a circular emblem.

Ann is the best dental hygienist that I have had the pleasure of working with in my 40 years of general practice. She wholeheartedly has embraced our “Total Health” practice philosophy and enthusiastically teaches our patients that the mouth is the key to our overall health. Our patients value the information that is presented during their visit to the office. They learn about periodontal disease and heart health, oral cancer, diabetes, sleep and breathing disorders, and occlusion. It’s never “just a cleaning” with Ann.

Ann is the guru of dental hygienists. We had been colleagues for over 8 years, and I have learned so much about this profession from her. She is sincere, knowledgeable, friendly, understanding, sympathetic, empathetic, confident, and charismatic. She has a unique, one-of-a-kind personality that people gravitate towards. She loves her profession and treats every client as if she has welcomed them into her heart and family, always putting their needs ahead of all else.

I did a partial with my hygienist and as I walked in very scared to get this done, Ann was there to make me feel so comfortable and her vibe was so positive. Before I knew it, the tooth was taken out and the partial was in. She talked me through it all and I don’t think I would’ve been able to do it without her help. She’s my Dental Hygiene Superhero.

She is sooo sweet to me, I felt comfortable, and she made me so happy to get my teeth done. The nicest hygienist I've ever met.

Ann Ramcharan has been my inspiration. She goes above and beyond for her practice, her clients, and her own education. Her unwavering passion for dental hygiene has been extraordinary.

Ann is consistently caring for her patients through fastidious and careful treatment and providing dental health care instruction and information. She is passionate and hardworking and, as long as she practises, I know I am in good hands; I have been a patient for 25 years and will continue to be.

Ann is a very caring and gentle hygienist. She's an amazing hygienist and kind to all her patients. She has taught me how to floss my teeth the right way. Nobody has ever done that. She is a great care provider. Thank you, Annmarie for being the best—I wouldn't see anyone else.

Ann immediately makes you feel comfortable and well taken care of; she's also very thorough. I look forward to our visits!
