

Brittany Butt, Calgary, Alberta

“Brittany The Biofilm Remover”

I'm greeted in reception,
With her pleasant salutation,
And as I sit in her chair,
I'm treated with care
My bitewings are taken,
And my knees ain't shakin'
My probing depths recorded so my gums don't drift too far
Then we start the scaling with the Cavitron in hand and I know she'll get that tartar always
making it up to par
She polishes and flosses and my teeth feel oh so nice and clean
Then the fluoride varnish and of course the post op care
She reschedules my next appt,
Since 6 months is quite afar,
I know I'll get a reminder from my hygienist the superstar

I chose Brittany Butt as my Dental Hygiene Superhero since she goes above and beyond from start to finish for each and every patient. Brittany's empathetic interpersonal skills help patients feel comfortable and relaxed at their dental visits. She is very thorough when explaining things to patients, her attention to detail in her work makes her stand out, and patients look forward to having her as their regular dental hygienist.

She is absolutely amazing, always has a smile on her face, and knows just how to make you smile.

Brittany is a great hygienist who is thorough and takes the time to explain the process.
