

Bronwynne Sové, Surrey, British Columbia

Bronwynne is a complete hero for me! While going to the dentist can be a very stressful thing for me, Bronwynne always makes me feel comfortable and calm. Her kindness and generosity shine throughout the office. In addition to her qualities of a superhero, her professionalism and craftsmanship are top notch! I am still apprehensive about the dentist but knowing Bronwynne is on the other side makes me feel a whole lot better!

Bronwynne is amazing. We work in an office that sees a lot of homeless people and drug users. Her compassion for everyone, especially those down on their luck, is inspiring. She cares so much for her patients that she will take time out of her day and call them to make sure they are OK. She is truly amazing.

She is kind, friendly, sweet, caring, gentle, efficient, and yes, she is my daughter, but I would not go to any other hygienist. Bottom line is that she cares about her clients and does everything possible to help and teach good dental hygiene and that is something that has always been important in our family.

Bronwynne is a volunteer for Share a Smile. They provide free oral health care for rural communities on Vancouver Island.

She is perfect. Bronwynne goes above and beyond for every single patient, she is friendly, patient, and thorough. I would recommend this hygiene superhero to everyone.

We are so proud to work with Bronwynne. She is leading the charge for dental hygienists in forging a path to stabilizing airway health and OMT. Her drive and ambition are unmatched. Bronwynne is taking every opportunity she can to be trained and educated on the most current techniques. She pushes hard every day to make sure airway protocol is recognized by surrounding medical professionals and is adamant about bringing this issue to the forefront of our medical communities. It will save lives and we couldn't be more proud to join hands with her on this journey.
